Dear Applicant:

This application packet contains information and the required forms for you to use in submitting a new application for funding under one program authorized by the Individuals with Disabilities Education Act (IDEA). This packet covers one competition under the Technical Assistance and Dissemination to Improve Results for Children with Disabilities (CFDA 84.326) Program. A chart listing pertinent information, including the closing date for the competition, can be found on page B1 of this package.

An application for an award must be: (1) mailed, hand-delivered, or submitted electronically by the closing date; and, (2) have an original signature on at least one copy of the assurances and certifications (Part IV of the application form). It is also important to include the appropriate Catalog of Federal Domestic Assistance (CFDA) numeric and alpha in Item #3 on ED Form 424 (e.g., CFDA No. 84.326X).

Please note the following:

- **MAXIMUM AWARD AMOUNT.** In addition to providing detailed budget information for the total grant period requested, the competition included in this package has a maximum award amount. Please refer to the specific information for the priority/competition to which you are submitting an application (i.e., Section C of this package). Please be advised that for the priority in this package, the maximum award amount covers all project costs including indirect costs.
- **STRICT PAGE LIMITS.** The competition included in this package limits the Part III Application Narrative to a specified number of double-spaced pages. This page limitation applies to all material presented in the application narrative -- including, for example, any charts, tables, figures, and graphs. (Please refer to the specific requirements on page limits for the priority/competition to which you are submitting an application - i.e., Section C of this package). The Department will reject, and will NOT consider an application that does not adhere to the page limit requirements for the competition.
- **FORMAT FOR APPLICATIONS.** Please note that additional information regarding formatting applications has been included on Pages D-3 and 4 of the "General Information on Completing An Application" section of this package.
- **PROTECTION OF HUMAN SUBJECTS IN RESEARCH.** The discretionary grant Application Form 424 requires applicants to indicate whether they plan to conduct research involving human subjects at any time during the proposed project period. The Protection of Human Subjects in Research Attachment is an integral part of the ED 424 form. It includes information that applicants need to complete the protection of human subjects item and, as appropriate, to provide additional information to the Department regarding human subjects research projects. Additional information on completing the protection of human subjects item

is also available and can be accessed on the INTERNET at:

<http://ocfo.ed.gov/grntinfo.htm>

<http://ocfo.ed.gov/humansub.htm>

- **NEW GUIDANCE ON SECTION 427 OF THE GENERAL EDUCATION PROVISIONS ACT (GEPA).** The Department has new guidance for grant applicants regarding the equitable access and equitable participation provision in section 427 of GEPA. The new enclosure, **NOTICE TO ALL APPLICANTS** (OMB No. 1801-0004 (Exp. 8/31/2001), replaces the old version, **NOTICE TO ALL APPLICANTS** (OMB No. 18010004 (Exp. 8/31/98), previously included in discretionary grant application packages. Section 427 of GEPA requires all new applicants for Departmental programs to describe in their applications the steps they propose to take to ensure equitable access to, and equitable participation in the project or activity to be conducted with program funds. The descriptions should include the steps that the applicant intends to take to help students, teachers and other beneficiaries overcome barriers to equitable participation in program activities that the applicant would conduct.
- **COPIES OF THE APPLICATION.** Current Government-wide policy requires that an original and three copies need to be submitted. OSEP would appreciate receiving two additional copies to facilitate the peer review process. This would mean AN ORIGINAL AND FIVE COPIES (six applications in all).

A program officer is available to provide information to you regarding these competitions. Please refer to the name of the program contact at the end of each priority description. For information about other U.S. Department of Education grant and contract opportunities, we encourage you to use the Department's grant information web page which can be accessed on the INTERNET at:

PRIORITY DESCRIPTION
AND
SELECTION CRITERIA
FOR THE
TECHNICAL ASSISTANCE AND DISSEMINATION
TO IMPROVE RESULTS FOR
CHILDREN WITH DISABILITIES PROGRAM

IDEA GENERAL SUPERVISION ENHANCEMENT GRANT

(84.326X)

DEADLINE: 07/13/01

ABSOLUTE PRIORITY:

BACKGROUND:

Over the past five years, the Office of Special Education Programs (OSEP) has worked with SEAs, local educational agencies (LEAs), parents, advocates, and other key stakeholders to shape its monitoring system in a way that will drive and support improved results for infants, toddlers, and children with disabilities, and their families. In order to ensure compliance with IDEA and support positive results, OSEP has implemented a Continuous Improvement Monitoring Process (CIMP) that:

- (a) Is continuous;
- (b) Is data-driven;
- (c) Is public;
- (d) Includes technical assistance;
- (e) Includes partnerships with stakeholders;
- (f) Includes State accountability; and
- (g) Includes self-assessment.

The CIMP includes the following phases:

- (a) Self-assessment;
- (b) Public input;
- (c) Data collection;
- (d) Reporting to the public;
- (e) Improvement planning;
- (f) Implementation of improvement strategies; and
- (g) Verification and consequences.

An in-depth explanation of the CIMP can be found at: <http://dssc.org/frc/monitor> “Click” on [manual100.doc](#) to view in MS WORD or on [manual100.pdf](#) to view as a pdf file.

Since the implementation of the CIMP, SEAs and State Lead Agencies have embraced the continuous improvement concept. Twenty-one States have been monitored using the CIMP, four have submitted Improvement Plans, fifteen States have recently completed self-assessments, and the remainder are about to initiate the process. From a State systems change perspective, many States have begun the difficult process of: (1) developing CIMP systems at the State level; (2) supporting the development of CIMP systems at the LEA level; (3) developing new data systems to support State and local CIMP systems; and (4) developing and implementing improvement plans that include the development or enhancement of State systems to identify and disseminate research-based educational and early intervention promising practices. Providing the States with some initial funds to support their participation in the CIMP, as well as to support unique State solutions and strategies developed in response to State-specific challenges identified through participation in the CIMP, will reinforce OSEP’s and the States’ commitment to CIMP.

ABSOLUTE PRIORITY:

This priority has been established to support State activities in one or more of the following focus areas. Applicants are encouraged to use these funds in combination with other State or Federal funds in carrying out project activities, but grant funds awarded under this priority must be used to support specific activities whose impact will be evaluated separately from activities supported with other funding sources. SEA applicants are encouraged to submit joint applications with the State Lead Agency.

Focus 1: Developing or Enhancing a Process to Conduct a Self-Assessment

SEAs and State Lead Agencies often require technical assistance to participate in the self-assessment phase of the CIMP. This focus supports the development or enhancement of a process for statewide self-assessment of the provision of early intervention or special education and related services, or both. The process should address such areas as:

(a) Identifying and implementing fiscally efficient processes to operate the CIMP Steering Committee;

(b) Identifying and obtaining data needed to evaluate the provision of early intervention and/or special education and related services, or both;

(c) Identifying and using methods to determine data validity and reliability;

(d) Identifying and using valid and reliable techniques to collect data from parents, LEAs, advocates, service providers, and other stakeholders in early intervention, special education, and related services;

(e) Identifying and using valid and reliable data analysis techniques; and

(f) Identifying and using a decision-making process, based on data analysis, that results in valid conclusions regarding areas: (1) in compliance; (2) in need of improvement; (3) out of compliance; and (4) of strength.

The self-assessment process must be aligned with the self-assessment requirements of the CIMP.

Focus 2: Developing or Enhancing a Data System to Support the Needs of a CIMP at the State or Local Level

An analysis of State self-assessments has shown that many of the States, and their LEAs and local Part C agencies, lack the infrastructure to collect sufficient data to determine the impact of special education and early intervention services. The collection and use of valid and reliable data are cornerstones of the CIMP.

This focus supports the development or enhancement of a data system that will provide results-oriented information about one or more of the following:

- (a) Appropriate early intervention services and/or special education and related services;
- (b) The effectiveness of the monitoring system of the SEA or State Lead Agency, or both;
- (c) Interagency coordination and fiscal responsibility;
- (d) The effectiveness of the State's dispute resolution system;
- (e) The effectiveness of the State's child find systems;
- (f) Personnel shortages, including those related to retention;
- (g) The system for exercising its general supervisory authority of the SEA or State Lead Agency, or both;
- (h) Efforts to address family needs and enhance families' capacities to meet the developmental needs of their children;
- (i) Early intervention services in the natural environment and/or special education and related services in the least restrictive environment;
- (j) The transition from Part C to Part B services;
- (k) The involvement of parents; and
- (l) Transition from school to work or postsecondary education.

The data system must be aligned with the data collection needs of the CIMP.

Focus 3: Developing or Enhancing a Process to Conduct Improvement Planning Activities Based on the Self-Assessment, Data Collection and Public Reporting Phases of the CIMP

Based upon an analysis of Improvement Plans submitted by States in response to OSEP monitoring reports, OSEP recognizes that many States lack a cohesive data-based approach to developing their Improvement Plans. Many States engaging in the improvement planning process have had trouble identifying and addressing the systemic barriers or factors that contributed to the existence of the practice that the State or OSEP determined needed improvement. Improvement Plans should include solutions that: (1) are not based on strategies previously employed without garnering the proposed results; (2) are based on a clear understanding of the systemic variables that are creating the problem; (3) address primary, rather than tangential issues and result in significant, rather than minimal changes; (4) propose process changes that result in practice changes; and perhaps most importantly, (5) address the positive impact they intend to have on children with disabilities. The process of developing Improvement Plans is a critical component of the CIMP, and if done properly will result in improved special education, related services, and early intervention services. This focus supports the development or enhancement of a process for improvement planning that, for example, will result in solutions that:

- (a) Identify systemic barriers to improved early intervention services, and/or special education and related services;
- (b) Address the systemic barriers to improved early intervention services, and/or special education and related services;
- (c) Include an evaluation component that will demonstrate the positive impact of early intervention services, and/or special education and related services;
- (d) Include an evaluation component that will demonstrate the positive changes in staff practice relative to the provision of special education, related, or early intervention services;
- (e) Are aligned or coordinated with the State's general education reform initiatives; and
- (f) Are consistent with and responsive to OSEP monitoring report findings.

The process must be aligned with the improvement planning phase of the CIMP.

Focus 4: Developing or Enhancing State Systems to Identify, Disseminate, and Implement Research-Based Promising Educational or Early Intervention Practices

Based upon an analysis of the Self-Assessment and additional data collected through the Data Collection phase of the CIMP, an Improvement Plan that addresses both compliance with IDEA and improvement of results is developed. OSEP has found that, in order to be fully effective, many Improvement Plans require a State technical assistance and dissemination infrastructure to

identify, disseminate, and implement research-based promising educational or early intervention practices. In many States, this structure is either nonexistent or lacks sufficient resources to be effective.

This focus supports the development or enhancement of a statewide technical assistance system that will address such areas as:

- (a) Providing information about research-based intervention and instructional practices;
- (b) Supporting the use of research-based instructional and service delivery approaches in local schools and agencies;
- (c) Serving as a conduit for the dissemination of research-based information between SEAs, State Lead Agencies, local educational and Part C agencies, and national technical assistance centers; and
- (d) Improving the efficacy of disseminating information.

The proposed activities must be aligned with the Improvement Planning process.

COMPETITIVE PREFERENCES:

Within this absolute priority, we will award the following competitive preference points under section 606 of IDEA and 34 CFR 75.105(c)(2)(i), to applications that are otherwise eligible for funding under this priority:

Up to ten (10) points based on the effectiveness of the applicant's strategies for employing and advancing in employment qualified individuals with disabilities in project activities as required under paragraph (a) of the "General Requirements" section of this notice. In determining the effectiveness of those strategies, we may consider the applicant's past success in pursuit of this goal.

Therefore, for purposes of this competitive preference, applicants can be awarded up to a total of 10 points in addition to those awarded under the published selection criteria for this priority. That is, an applicant meeting this competitive preference could earn a maximum total of 110 points.

MAXIMUM AWARD:

Project award amounts are for a single budget period of twelve (12) months. Maximum FY 2001 State basic grant awards are listed in this notice. Applicants should note that they may apply for awards of differing amounts based on whether the application addresses the needs of: (1) only the Part B program; or (2) both the Parts B and C programs.

In order to apply for the combined Parts B and C award, the application must describe in Part III: (1) how the SEA and State Lead Agency participated in developing the application; and (2) how the applicant will use the funding to address the needs of both the Parts B and C programs.

If an SEA endorses the State Lead Agency as the State's applicant, the application must describe: (1) how the State Lead Agency and SEA collaborated to develop the application; and (2)

how the State Lead Agency will use the award to address the needs of both the Parts C and B programs (e.g., developing or enhancing a data system that tracks the transition of toddlers from Part C to Part B services). The amounts for the State basic grant are based on OSEP's assessment that the minimal amounts necessary to address only Part B program needs and both Parts B and C program needs are \$120,000 and \$200,000 respectively. Amounts above the minimum levels were calculated based on the 85 percent population and 15 percent poverty rates used in the Part B formula grant award calculations. Outlying area levels are \$80,000 for addressing only Part B and \$100,000 for addressing both Parts B and C. Because Freely Associated States participate only in the Part B program, a level of \$80,000 has been established for addressing Part B only. States should not propose a budget in their application for the basic grant award that exceeds the amounts in this notice.

At our discretion, we may reduce the grant award levels based on available funds. We will reject and will not consider an application that proposes a budget period exceeding twelve (12) months or that, for the basic grant award, exceeds the amounts listed in this notice for each State.

SUPPLEMENTARY INFORMATION:

OSEP may have additional funds available to support enhancements to the activities described in the applications approved for funding under this competition. Applicants wishing to apply for enhancement funds may add up to five (5) additional pages to Part III to describe additional activities that augment or complement those presented in the narrative section of their basic grant proposal. Enhancement activities may be simply an expansion of activities already described in the narrative or they may be new activities that will improve the quality of the previously proposed tasks; for example, additional staff training, the acquisition of expert technical assistance, or improved stakeholder involvement. A separate budget for the enhancement funds must be prepared and included in Part II of the application. The budget for the enhancement funds must not exceed thirty percent of the award amount listed for the basic grant (i.e., either 30 percent of the award for Part B only or 30 percent of the award for Parts B and C, depending on whether the application addresses only the needs of Part B or the needs of Parts B and C).

PAGE LIMITS: The maximum page limit for this priority, if only applying to address Part B is twenty (20) double-spaced pages for a basic grant and twenty-five (25) pages for a basic grant with enhancements. The maximum page limit if applying to address Part B and Part C is thirty (30) double-spaced pages for a basic grant and thirty-five (35) pages for a basic grant with enhancements.

Note: Applications must meet the required page limit standards that are described in the “General Requirements” section of this notice.

GENERAL REQUIREMENTS:

(a) The projects funded under this notice must make positive efforts to employ and advance in employment qualified individuals with disabilities in project activities (see Section 606 of IDEA).

(b) Applicants and grant recipients funded under this notice must involve individuals with disabilities or parents of individuals with disabilities in planning, implementing, and evaluating the projects (see Section 661(f)(1)(A) of IDEA).

(c) The projects funded under these priorities must budget for a two-day Project Directors' meeting in Washington, D.C. during each year of the project.

(d) In a single application, an applicant must address only one absolute priority in this notice.

(e) Part III of each application submitted under a priority in this notice, the application narrative, is where an applicant addresses the selection criteria that are used by reviewers in evaluating the application. You must limit Part III to the equivalent of no more than the number of pages listed in the PAGE LIMITS section listed above, using the following standards:

- A "page" is 8.5" x 11" (on one side only) with one-inch margins (top, bottom, and sides).
- Double-space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, and captions, as well as all text in charts, tables, figures, and graphs.
- If using a proportional computer font, use no smaller than a 12-point font, and an average character density no greater than 18 characters per inch. If using a nonproportional font or a typewriter, do not use more than 12 characters per inch.

The page limit does not apply to Part I - the cover sheet; Part II - the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography or references, or the letters of support. However, you must include all of the application narrative in Part III.

We will reject without consideration or evaluation any application if –

- You apply these standards and exceed the page limit; or
- You apply other standards and exceed the equivalent of the page limit.

APPLICABLE REGULATIONS: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 85, 86, 97, 98, and 99; (b) The selection criteria for the priority under this program are drawn from the EDGAR general selection criteria menu. The specific selection criteria for this priority are included in the funding application packet for this competition.

Note: The regulations in 34 CFR part 86 apply to institutions of higher education only.

ELIGIBLE APPLICANTS: State educational agencies (SEAs) of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and outlying areas (United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands). Freely Associated States (Federated States of Micronesia, Republic of Palau, Republic of the Marshall Islands) are also eligible to apply for funding, but only to address system needs of Part B of the IDEA because the Freely Associated States do not receive funding under Part C of IDEA. An entity eligible to apply for funding under Section 661(b)(1)(A) of IDEA may apply on behalf of an SEA or a Freely Associated State, but the entity must include a signed letter of endorsement from the Director of the SEA or the appropriate official from the Freely Associated State. The Assistant Secretary will not fund applications submitted by two agencies or entities on behalf of a single State, but encourages joint applications from SEAs and State Lead Agencies for Part C early intervention

services (State Lead Agencies) in States where the SEA is not the State Lead Agency. An SEA may endorse the State Lead Agency as the State's applicant under the conditions set forth in the Maximum Award section.

SELECTION CRITERIA AND FORMAT FOR THE IDEA GENERAL SUPERVISION ENHANCEMENT GRANT (CFDA 84.326X) COMPETITION

Part III of the application form requires a narrative that addresses the selection criteria that will be used by reviewers in evaluating individual proposals. Applications are more likely to receive favorable reviews by panels when they are organized according to the format suggested below. This format was published in the FEDERAL REGISTER as an appendix to the program regulations, and it addresses all the selection criteria used to evaluate applications required by regulations. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

The selection criteria that will be used to evaluate applications submitted to the IDEA General Supervision Enhancement Grant (CFDA 84.326X) competition are the selection criteria for new grants required by the EDGAR general selection criteria menu. The maximum score for all of the criteria is 100 points.

A one-page **abstract** should precede the application narrative. The application narrative should include the following sections in this order:

(a) Need for Project (20 points)

The Secretary Considers the need for the proposed project. In determining the need for the proposed project the Secretary considers one or more of the following factors:

- (1) The magnitude or severity of the problem to be addressed by the proposed project; and
- (2) The extent to which specific gaps or weaknesses in services, infrastructure or opportunities have been identified and will be addressed by the proposed project, including the nature and magnitude of those gaps or weaknesses.

(b) Quality of Project Design (25 points)

The Secretary considers the quality of the design of the proposed project. In determining the quality of the design of the proposed project the Secretary considers one or more of the following factors:

- (1) The extent to which the design of the proposed project is appropriate to, and will successfully address, the needs of the target population or other identified needs; and
- (2) The extent to which goals, objectives, and outcomes to be achieved by the proposed project are clearly specified and measurable.

(c) Quality of the management plan (10 points)

The Secretary considers the quality of the management plan for the proposed project. In determining the quality of the management plan for the proposed project, the Secretary considers the following factor:

(1) The adequacy of the management plan to achieve the objectives of the proposed project on time and within budget, including clearly defined responsibilities, timelines, and milestones for accomplishing project tasks.

(d) Quality of the project evaluation (20 points)

The Secretary considers the quality of the evaluation to be conducted of the proposed project. In determining the quality of the evaluation, the Secretary considers one or more of the following factors:

(1) The extent to which the methods of evaluation include the use of objective performance measures that are clearly related to the intended outcomes of the project and will produce quantitative and qualitative data to the extent possible;

(2) The extent to which the methods of evaluation are thorough, feasible, and appropriate to the goals, objectives, and outcomes of the proposed project; and

(3) The extent to which the methods of evaluation provide for examining the effectiveness of project implementation strategies.

(e) Quality of project personnel (15 points)

The Secretary considers the quality of the personnel who will carry out the proposed project. In determining the quality of project personnel, the Secretary considers the extent to which the applicant encourages applications for employment from persons who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability. In addition, the Secretary considers one or more of the following factors:

(1) The qualifications, including relevant training and experience, of key project personnel; and

(2) The qualifications, including relevant training and experience, of project consultants or subcontractors.

Adequacy of Resources (10 points)

The Secretary considers the adequacy of resources for the proposed project. In determining the adequacy of resources for the proposed project, the Secretary considers one or more of the following factors:

- (1) The adequacy of support, including facilities, equipment, supplies, and other resources, from the applicant organization or the lead applicant organization;
- (2) The extent to which the budget is adequate to support the proposed project;
- (3) The extent to which the costs are reasonable in relation to the objectives, design, and potential significance of the proposed project; and
- (4) The potential for continued support of the project after Federal funding ends, including, as appropriate, the demonstrated commitment of appropriate entities to this type of support.

GENERAL INFORMATION
ON COMPLETING
AN APPLICATION

GENERAL INFORMATION ON COMPLETING AN APPLICATION

Potential applicants frequently direct questions to officials of the Department regarding application notices and programmatic and administrative regulations governing various direct grant programs. To assist potential applicants, the Office of Special Education Programs staff have assembled the following most commonly raised issues. In general, this information applies to the grant competitions covered by this application package.

- **EXTENSION OF DEADLINES**

Waivers for individual applications are not granted, regardless of the circumstances. Under very extraordinary circumstances a closing date may be changed. Such changes are announced in the Federal Register.

- **COPIES OF THE APPLICATION**

Current Government-wide policy is that only an original and three copies need to be submitted. OSEP would appreciate receiving two additional copies to facilitate the peer review process. This would mean AN ORIGINAL AND FIVE COPIES need to be submitted (six applications in all). Copies of the application may be bound, but it is not necessary or required. If bound, one copy should be left unbound to facilitate electronic scanning and any necessary reproduction. Applicants should not use colored paper, foldouts, photographs, or other materials that are hard to duplicate.

- **MAKING APPLICATIONS MORE ACCESSIBLE TO REVIEWERS WHO ARE BLIND OR HAVE LOW VISION**

The Department will accept one copy of the application in an accessible format (i.e., IBM PC compatible WordPerfect or ASCII code diskette) along with the original and five print copies of the application. The accessible format copy can be used with available software to convert the text of the application into Braille, or with text to voice applications. If there are any differences in the print original provided on the disk and in print, the print original is assumed to be the correct version.

- **MISSED DEADLINES AND SUBMISSION UNDER OTHER COMPETITIONS**

Should an application miss the deadline for a particular competition, it may be submitted to another competition. However, if an application is properly prepared to meet the specifications of one competition, it is extremely unlikely that it would be favorably evaluated under a different competition.

- **SUBMISSION TO MORE THAN ONE PROGRAM**

Applications may be submitted to more than one Federal program if you are unsure of the most appropriate program. Each application should be prepared following the instructions for that particular program as closely as possible (which may require some reformulation). It is very helpful if each program is notified that an identical or similar application is being submitted to another program.

- **HELP PREPARING APPLICATIONS**

We are happy to provide general program information. Clearly it would not be appropriate for staff to participate in the actual writing of an application, but we can respond to specific questions about our application requirements and evaluation criteria, or about the announced priorities. Applicants should understand that such previous contact is not required, nor does it guarantee the success of an application.

- **NOTIFICATION OF FUNDING**

The time required to complete the evaluation of applications is variable. Once applications have been received staff must determine the areas of expertise needed to appropriately evaluate the applications, identify and contact potential reviewers, convene peer review panels, and summarize and review the recommendations of the review panels. You can expect to receive notification within 3 to 6 months of the application closing date, depending on the number of applications received and the number of competitions with closing dates at about the same time. The requested start date should therefore be a minimum of 6 months after the application closing date.

- **POSSIBILITY OF LEARNING THE OUTCOME OF REVIEW PANELS PRIOR TO OFFICIAL NOTIFICATION**

Every year we are called by a number of applicants who have legitimate reasons for needing to know the outcome of the review prior to official notification. Some applicants need to make job decisions, some need to notify a local school district, etc. Regardless of the reason, we cannot share information about the review with anyone until the Assistant Secretary has approved a slate of projects recommended for funding. You will be notified as quickly as possible either by telephone (if your application is recommended for funding), or through a letter (if your application is not successful).

- **FORMAT FOR APPLICATIONS**

The application narrative (Part III of the application form) should be organized to follow the exact sequence of the components in the selection criteria used to evaluate applications. (The selection criteria for the competitions covered by this packet are listed following the specific competition information in section “C” of this packet.) A table of contents, list of priority requirements, and a one-page abstract summarizing the objectives, activities, project participants, and expected outcomes of the proposed project should precede the application narrative. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

To aid in screening and reviewing the application, applicants should list in Part II and prior to the abstract, all general, special, and other requirements for the priority and corresponding page number (s) where requirements are addressed within the application. Page limits do not

apply to this list. (All requirements are found in each priority description included in this application package.) The format included below is an example of how you might provide this information in your application.

Page #	Requirements
_____	(a) Projects funded under this notice must make positive efforts to employ and advance in employment qualified individuals with disabilities in project activities. (See Section 606 of IDEA)
_____	(b) Applicants and grant recipients funded under this notice must involve individuals with disabilities or parents of individuals with disabilities in planning, implementing, and evaluating the projects. (See Section 661(f)(1)(A) of IDEA)
_____	(c) Applicant must describe steps to ensure equitable access to, and participation in, its program for students, teachers, and other program beneficiaries with special needs. (See Section 427, GEPA)
_____	(d) Projects funded under these priorities must budget for a two-day Project's Directors' meeting in Washington, D.C. during each year of the project.

- **BEST WAY TO PREPARE PROGRAM ABSTRACT**

The program abstract should be one page in length. It would be helpful if it included; the title of the program, the name of the Absolute Priority, and the CFDA Number (e.g., 84.326X,).

- **PAGE LIMITS**

Please note that all applications submitted under the competition in this application package must adhere to the Part III - Application Narrative page limit requirements that are specified under each priority/competition description. Your application should provide enough information to allow the review panel to evaluate the importance and impact of the project as well as to make knowledgeable judgments about the methods you propose to use (design, subjects, sampling procedures, measures, instruments, data analysis strategies, etc.). It is often helpful to have:

- (1) Staff Vitae--They should include each person's title and role in the proposed project and contain only information that is relevant to this proposed project's activities and/or publications. Vitae for consultants and Advisory Council members should be similarly brief.
- (2) Instruments--except in the case of generally available and well known instruments.
- (3) Agreements--when the participation of an agency other than the applicant is critical to the project. This is particularly critical when an intervention will be implemented within an agency, or when subjects will be drawn from particular agencies. Letters of cooperation should be specific, indicating agreement to implement a particular intervention or to provide access to a particular group of students.

- **MAKING SURE APPLICATION IS ASSIGNED TO THE CORRECT COMPETITION**

Applicants should clearly indicate in Item 3 on the application (ED Form 424) the CFDA number of the program priority (e.g., 84.326X,) representing the competition in which the application should be considered. If this information is not provided, your application may inadvertently be assigned and reviewed under a different competition from the one you intended.

- **RETURN OF NON-FUNDED APPLICATIONS**

We do not return original copies of applications. Thus, applicants should retain at least one copy of the application. Copies of reviewer comments will be mailed to all applicants.

- **PROPOSED STAFF AVAILABILITY TO PROJECT**

For each staff person named in the application, please provide documentation of all internal and external time commitments. In instances where a staff person is committed on a federally supported project, please provide the project name, Federal office, program title, the project Federal award number, and the amount of committed time by each project year. This information (e.g., Staff: Jane Doe; Project Name: Succeeding in the General Curriculum; Federal office: Office of Special Education Programs; Program title: Field Initiated Research; Award number: H324C980624; Time commitments: Year 1—30%; Year 2—25% and Year 3—40%) can be provided as an Appendix to the application.

In general, we will not reduce time commitments on currently funded grants from the time proposed in the original application. Therefore, we will not consider for funding any application where key staff are bid above a time commitment level that staff have available to bid. Further, the time commitments stated in newly submitted applications will not be negotiated down to permit the applicant to receive a new grant award.

- **USE OF PERSON LOADING CHARTS**

It is important for applicants to include proposed time commitments for all project personnel. Also, program officials and applicants often find person loading charts useful formats for showing project personnel and their time commitments to individual activities. A person loading chart is a tabular representation of major evaluation activities by number of days spent by each key person involved in each activity, as shown in the following example.

Table #
Person Loading Chart - Time in Day(s) by Person*

Activity	Time in Day(s) by Person			
	Person A	Person B	Person C	Person D
Library Research	15	20	0	0
Hire Staff	0	0	0	5
Prepare Materials	5	25	0	0
Train Raters	0	2	0	0
Data Collection	60	60	0	0
Data Analysis	0	0	25	5
Dissemination (manuscripts, etc.)	0	1	0	10

*Note: All figures represent FTE for the academic year.

- DELIVERING/SENDING APPLICATIONS TO THE COMPETITION MANAGER

Applications can be mailed or hand delivered, or submitted electronically but in either case must go to the Application Control Center at the address listed in the Application Transmittal Instructions (E-1). Delivering or sending the application to the competition manager in the program office may prevent it from being logged in on time to the appropriate competition and may result in the application not being reviewed.

- ALLOWED TRAVEL UNDER THESE PROJECTS

Travel is allowed if the travel specifically relates to the expressed goals of the project. Travel by students to further their education under the project's goals is also allowed. Travel to conferences is the travel item that is most likely to be questioned during negotiations. Such travel is sometimes allowed when it is for purposes of dissemination, when there will be results to be disseminated, and when it is clear that a conference presentation or workshop is an effective way of reaching a particular target group.

- FUNDING OF APPROVED APPLICATIONS

It is often the case that the number of applications recommended for approval by the reviewers exceeds the dollars available for funding projects under a particular competition. When the panel reviews are completed for a particular competition, the individual reviewer scores and applications are ranked. The higher ranked, approved applications are funded first, and there are often lower ranked, approved applications that do not receive funding. Sometimes, one or two applications that are approved and fall next in rank order (after those projects selected for funding) are placed on hold. If dollars become available as a result of negotiations, or if a higher ranked applicant declines the award, the projects on hold may receive funding. If you receive a

letter stating that you will not receive funding, then your project has neither been selected for funding nor placed on hold.

- **INDIRECT COST RATE**

There is no maximum indirect cost for the competitions in this application package. An organization's current effective indirect cost rate is the rate that should be reflected in your proposed budget.

- **ISSUES RAISED DURING DISCUSSIONS PRIOR TO AWARD**

If your application is recommended for funding, discussions may be held prior to award to clarify technical or budget issues. These are issues that have been identified during panel and staff review. Generally, technical issues are minor issues that require clarification. Alternative approaches may be presented for your consideration, or you may be asked to provide additional information or rationale for something you have proposed to do. Sometimes, concerns are stated as "conditions". These are concerns that have been identified as so critical that the award cannot be made unless those conditions are met. Questions are also raised about the proposed budget during the discussion phase. Generally, budget issues are raised because there is inadequate justification or explanation of the particular budget item, or because the budget item does not seem critical to the successful completion of the project. A Federal project officer will present the issues to you and ask you to respond. If you do not understand the question, you should ask for clarification. In responding to discussion items you should provide any additional information or clarification requested. You may feel that an issue was addressed in the application. It may not, however, have been explained in enough detail to make it understood by reviewers, and more information should be provided. If you are asked to make changes that you feel could seriously affect the project's success, you may provide reasons for not making the changes, or provide alternative suggestions. Similarly, if proposed budget reductions will, in your opinion, seriously affect the proposed activities, you may want to explain why and provide additional justification for the proposed expenses. Your changes, explanations, and alternative suggestions will be carefully evaluated by staff. In some instances, an applicant may again be contacted for additional information. An award cannot be made until all issues have been resolved and conditions met.

- **TREATING A PRIORITY AS TWO SEPARATE COMPETITIONS.** In the past, there have been problems in finding peer reviewers without conflicts of interest where applications are made by many entities throughout the country. The Standing Panel requirements under IDEA '97 have also placed additional constraints on the availability of reviewers. Therefore, The Department has determined that, for some discretionary priorities, applications may be ranked and selected for funding in two or more groups, which will ensure the availability of a much larger group of reviewers without conflicts of interest. This procedure will increase the quality, independence and fairness of the review process and will permit panel members to review applications under discretionary priorities to which they have also submitted applications.

- **SUCCESSFUL APPLICATIONS AND ESTIMATED/PROJECTED BUDGET AMOUNTS IN SUBSEQUENT YEARS**

There is a maximum award amount specified for the priority/competitions included in this package. The Department rejects and does not consider an application that proposes a budget exceeding the maximum amount for any single budget period of 12 months for the priorities included in this package. Please refer to the priority description to determine the maximum award for any one particular competition. Since the yearly budgets for multi-year projects will be negotiated at the time of the initial award, applicants must include detailed budgets for each year of their proposed project. Generally, out-year funding levels most likely will not exceed 1st year budgets. However, budget modifications during the negotiation process, the findings from the previous year, or needed changes in the study design can affect your budget requirements in subsequent years, but in no case will out-year budgets exceed the maximum award amount.

- **REQUIREMENT TO REPORT THE RESULTS OF GRANT ACTIVITIES**

The Department shall, where appropriate, require recipients of all grants, contracts and cooperative agreements under Part D of the Individuals with Disabilities Education Act to prepare reports describing their procedures, findings, and other relevant information. The Department shall require their delivery to the Department of Education and to the ERIC Clearinghouse on Disabilities and Gifted Education, and other networks as The Department may determine appropriate. (20 U.S.C. 1461)

- **DIFFERENCE BETWEEN A COOPERATIVE AGREEMENT AND A GRANT**

A cooperative agreement is similar to a grant in that its principal purpose is to accomplish a public purpose of support or stimulation as authorized by a Federal statute. It differs from a grant in the sense that in a cooperative agreement substantial involvement is anticipated between the executive agency (in this case the Department of Education) and the recipient during the performance of the contemplated activity.

- **DIFFERENCE BETWEEN AN ABSOLUTE PRIORITY, AN INVITATIONAL PRIORITY, AND A COMPETITIVE PRIORITY**

An absolute priority is a priority that an applicant must address in order to receive an award. If an applicant does not address an absolute priority, their application will be returned as being non-responsive to the priority.

An invitational priority is a priority that reflects a particular interest of the Department, and an applicant is encouraged to address the invitational priority along with the required absolute priority. However, an applicant choosing to address an invitational priority, will not receive any competitive preference over other applications.

A competitive priority is like an invitational priority in that it reflects a particular interest of the Department, and an applicant is encouraged to address the competitive priority along with the required absolute priority. A competitive priority may be handled in one of two ways: (1) an

application may be awarded additional points depending on how effectively it addresses the competitive priority; or (2) an application that meets a competitive priority may be selected over an application of comparable merit that does not address the competitive priority. The type of competitive priority for a particular competition is always included in the FEDERAL REGISTER announcement.

- **OBTAINING COPIES OF THE FEDERAL REGISTER, PROGRAM REGULATIONS AND FEDERAL STATUTES**

Copies of these materials can usually be found at your local library. If not, they can be obtained by writing to:

Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402
Telephone: (202) 512-1800.

Information about the Department's funding opportunities, including copies of application notices for discretionary grant competitions, can be viewed on the Department's grant information web page which can be accessed on the INTERNET at: <http://ocfo.ed.gov/grntinfo.htm> or on the World Wide Web at <http://www.ed.gov/money.html>. However, the official application notice for a discretionary grant competition is the notice published in the FEDERAL REGISTER.

STATE SINGLE POINTS OF CONTACT (SPOCs)

It is estimated that in 2001, the Federal Government will outlay \$305.6 billion in grants to State and local governments. Executive Order 12372, "Intergovernmental Review of Federal Programs," was issued with the desire to foster the intergovernmental partnership and strengthen federalism by relying on State and local processes for the coordination and review of proposed Federal financial assistance and direct Federal development. The Order allows each State to designate an entity to perform this function. Below is a copy of the official list of those entities. For those States that have a home page for their designated entity, a direct link has been provided from the official version of this document from the OMB web page at the following address: <http://www.whitehouse.gov/omb/grants/spoc.html>. States that are not listed on this page have chosen not to participate in the intergovernmental review process, and therefore do not have a SPOC. If you are located within one of these States, you may still send application material directly to a Federal awarding agency.

If all the research activities are designated to be exempt under the

regulations, enter, in item 11a, the exemption number(s) corresponding to one or more of the six exemption categories listed in "Protection of Human Subjects in Research" attached to this form. This date must be no earlier than one year before the receipt date for which the application is submitted and must include the four (4) digit year (e.g., 2000). Check the type of IRB review in the appropriate box. An IRB may use the expedited review procedure if it complies with the requirements of 34 CFR 97.110. If the IRB review is delayed beyond the submission of the application, enter "Pending" in item 11c. If your application is recommended/selected for funding, a follow-up certification of IRB approval from an official signing for the applicant organization must be sent to and received by the designated ED official within 30 days after a specific formal request from the designated ED official. If the applicant organization does not have on file with GPOS or OPRR an approved Assurance of Compliance that covers the proposed research activity, enter "None" in item 11b and skip 11c. In this case, the applicant organization, by the signature on the application, is declaring that it will comply with 34 CFR 97 within 30 days after a specific formal request from the designated ED official for the Assurance(s) and IRB certifications.

13. Project Title. Enter a brief descriptive title of the project. If more than one program is involved, you should append an explanation on a separate sheet. Protection of Human Subjects in Research (Attachment to ED 424)

I. Instructions to Applicants about the Narrative Information that Must be Provided if Research Activities Involving Human Subjects are Planned.

If you marked item 11 on the application “Yes” and designated exemptions in 11a, **(all research activities are exempt)**, provide sufficient information in the application to allow a determination that the designated exemptions are appropriate. Research involving human subjects that is exempt from the regulations is discussed under **II.B. “Exemptions,”** below. The Narrative must be succinct. **Provide this information in an “Item 11/Protection of Human Subjects Attachment” and insert this attachment immediately following the ED 424 face page.**

If you marked “Yes” to item 11 on the face page, and designated no exemptions from the regulations **(some or all of the research activities are nonexempt)**, address the following six points for each nonexempt activity. In addition, if research involving human subjects will take place at collaborating site(s) or other performance site(s), provide this information before discussing the six points. Although no specific page limitation applies to this section of the application, be succinct. Provide the six-point narrative and discussion of other performance sites in an **“Item 11/Protection of Human Subjects Attachment” and insert this attachment immediately following the ED 424 face page.**

(1) Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness.

Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their

likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

II. Information on Research Activities Involving Human Subjects

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department’s regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Is it a research activity?

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Is it a human subject?

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) *If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. ***If the subjects are children, this exemption applies only to research involving educational tests or observations of public behavior when the investigator(s) do not participate in the activities being observed.*** [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S Department of Agriculture.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff (GPOS) Office of the Chief Financial and Chief Information Officer, U.S. Department of Education, Washington, D.C., telephone: (202) 708-8263, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site at <http://ocfo.ed.gov/humansub.htm>.

NOTICE TO ALL APPLICANTS
(ENSURING EQUITABLE ACCESS)
AND
APPLICATION FORMS AND INSTRUCTIONS

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Pub. L. 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs.

This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you

may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

The time required to complete this information collection is estimated to vary from 1 to 3 hours per response, with an average of 1.5 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Washington, DC 20202-4651.

DUNS Number Instructions

D-U-N-S No.: Please provide the applicant's D-U-N-S Number. You can obtain your D-U-N-S Number at no charge by calling 1-800-333-0505 or by completing a D-U-N-S Number Request Form. The form can be obtained via the Internet at the following URL:

<http://www.dnb.com/dbis/aboutdb/intlduns.htm>

The D-U-N-S Number is a unique nine-digit number that does not convey any information about the recipient. A built in check digit helps assure the accuracy of the D-U-N-S Number. The ninth digit of each number is the check digit, which is mathematically related to the other digits. It lets computer systems determine if a D-U-N-S Number has been entered correctly.

Dun & Bradstreet, a global information services provider, has assigned D-U-N-S numbers to over 43 million companies worldwide.
